Subject: PRONGHORN PERMITS

Jim, Sam Spiller and I recommend adding the following paragraph to your letter to the military, perhaps as an ending paragraph:

cont. of operations?

Please be advised that the Service has not yet determined if the activity being consulted upon will result in a jeopardy to this species. If you decide to go forward with this activity before section 7 consultation is completed and without an incidental take statement or permit, you incur the risk of not being covered for any take that may occur, either through direct mortality or injury or from harrassment related to the monitoring activities, and you may be limiting the development of reasonable and prudent alternatives, should they be required.
